RE: PLENISH

IT'S THE BEST-KEPT SECRET, GROWING RIGHT IN AMERICA'S OWN BACK YARD.

WELLNESS LIFESTYLE

Dietary Supplement

'America's First Grape,' the muscadine, was already growing wild in America before European settlers arrived back in the 1500's, and they started cultivating it soon after that. Since then, generations and generations of Americans have grown them, but only in the last few years has the true power and potential of this treasure really been discovered.

The USDA, in collaboration with the Produce for Better Health Foundation, analyzed 59 individual fruits, nuts, and vegetables for their oxygen radical absorbance capacity (ORAC), or their capability to combat free radicals.

Muscadine grapes have a relatively high ORAC value. Re:Plenish provides a superior mix of specific antioxidant compounds including muscadine grapes, to provide both a higher level and better blend of antioxidants to fight the free radicals that enter the human body.

TAKE RE:PLENISH IF:

- You don't consume at least 5 servings of high ORAC foods daily.
- You want extra support for healthy circulation, immunity and younger looking skin.
- You want to support cardiovascular function.
- You want to fight the aging effects of a toxic environment and poor diet.
