## OUR PHILOSOPHY OF UNCOMPROMISING HEALTH™

We've always heard we are what we eat... NOT TRUE... we are what we ABSORB! Air, water and nutrients are all vital to our health and what we absorb is the key to good health. Our products offer complete health choices, not partial ones; choices to purify and enrich the air you breathe, the surfaces you touch, the water you drink; choices to support your immune system, to strengthen your body, to shape your physique for optimal resistance and success.

At Vollara, we focus on the essentials. Five key products serve as the foundation for Uncompromising Health: FreshAir to purify and clean your environment, LivingWater to enhance the benefits of fresh water, Re:Sist to support your cells, Re:Fuel to nourish your cells, and Re:Plenish to rejuvenate your cells. We believe that these five Essentials support 99% of the common health challenges most people may face in their lifetime.

In addition to our in-house team, our esteemed Medical & Scientific Advisory Board guides, tests and researches every component of every technology to ensure we are delivering solid, best-in-class products that fill real needs in the marketplace.
